

鑫泽农业

SYNGER AGRICULTURAL CO., LTD

张掖市鑫泽农业开发有限公司

张掖市鑫泽农业开发有限公司位于著名丝绸之路的中断,河西走廊西端,这里耕地面积大,地势平坦;渠、路、林、田配套,雪、泉、井水混灌,农业旱涝保收;日照时间长、降雨量少、蒸发强、气候干燥、光照资源丰富,是典型的温带大陆性气候。由于地理环境的特殊,又占有得天独厚的自然条件,所以这里已成为我国重要的种子繁育基地之一。海拔高(1400-2000m以上),气候温和(年平均气温7.3℃),昼夜温差大(约14-16℃),空气干燥(年降雨量85.5mm),日照时间长(年日照3033.4小时)。是敦煌莫高窟的故乡,也是我国著名的卫星发射基地。还有独特的空间隔离条件及“天然低温床”优势,是生产种子的天然温床,由于这里生产的种子有三高(发芽率高、杂交率高、千粒重高)的特点。已赢得国内外种子界的认可和一致好评。

公司注册资金100万元,现有员工25人。其中大专以上学历15人,高中学历10人。公司下设5个部门,财务部、生产部、质检部、加工部、试验农场部。公司根据河西地区地理优势和公司专业的繁种技术在河西共计建立大型生产基地5处。。公司每年生产总面积达到3-5千亩左右。

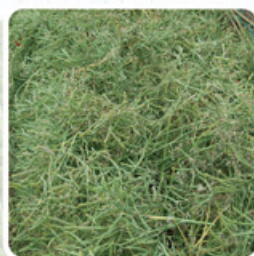

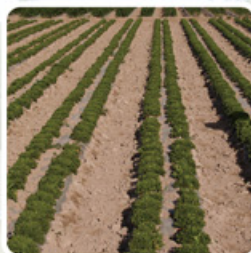

公司依赖独特的自然优势,以公司+基地+农户的发展模式,以生产、开发、为主体的发展格局为目标,本着互惠互利、依法生产经营为原则的法人企业,公司将以上乘的质量、优质的服务、合理的价格,真诚与国内外同仁合作,代繁、代制瓜类、蔬菜、花卉种子。

SYNGER AGRICULTURAL CO., LTD is located in the west of China. The land is arable and flat; matching with drainage, roads, forests, fields, irrigated by mixed snow, spring, well water; long time sunshine, small rainfall, strong evaporation, dry climate, rich in natural light resource, is typical temperate continental climate.

Due to the special geographical environment, and unique natural conditions, there has become a major seed breeding bases of the nation. High elevation (above 1400-2000m), mild climate (average temperature 7.3 °C), big temperature difference between day and night (about 14-16 °C), dry air (annual rainfall of 85.5mm), long sunshine hours (3033.4 hours of sunshine) are the advantages. There is a unique spatial segregation conditions and "natural cold bed" advantage is a natural breeding ground for seed production, because of three-high (high germination rate, high hybrid rate and high 1000-grain weight) characteristic we have been entangled recognition and acclaim in domestic and international seed industry.

We have established the mode of growth that is combined the company, base farm, farmers as one, according to the reciprocity and mutual benefit we provide high-quality service and reasonable price for the seeds of melons, vegetables, flowers, etc.

Look forward for the cooperation in the near future.

鑫泽农业公司是一家致力于为客户提供蔬菜，花卉，油料及瓜类种子繁殖服务的一家专业种子生产公司。我们根据当地的地理优势，将建立三处大型种子生产基地，分别位于酒泉（北纬39.44 东经98.31），张掖（北纬38.56 东经100.26），武威（北纬37.56 东经102.39）。

鑫泽公司可根据客户的生产需要或要求，对纯系种源进行杂交组合，配合客户的多方面需求，可依据种子生产经验，杂交选育新品种，与客户共同拥有种子生产先进技术，达到国际先进生产技术与国内资源的融合。我们同时还提供种子加工，包装，消毒，精选试验，分级等业务。

Xin Ze agriculture is a company committed to provide customers with vegetables, flowers, melon seed oil and breeding services, a specialized seed production company. According to the local geographical advantage we will build three large-scale seed production base, located in Jiuquan (latitude 39.44 longitude 98.31), Zhangye (latitude 38.56 longitude 100.26), Wuwei (latitude 37.56 longitude 102.39). Xin Ze company can produce according to customers needs or Yaoqiu, the source of the pure species hybridization Zuhe to meet customers various requirements by virtue of their seed production experience, cross breeding of new varieties, seed production and customers to have advanced technology to achieve international advanced production technology and the integration of domestic resources. We also provide seed processing, packaging, sterilization, selection testing, grading and other services.

实验农场

在鑫泽 我们已经建立起自己的试验农场，实验农场主要为生产部门提供每一种作物的每一种品种的详细数据，为大量生产奠定坚实的基础，同时满足客户的生产及实验要求。实验农场重点强化集科研、试验、生产、经营开发于一体的育、繁、一体化种子产业化工程。随着该工程的顺利实施和科研力量的不断发展壮大，不仅为生产开发注入了新的活力，同时还为大面积制种提供强有力的技术保证。

In Xin Ze test we have set up their own farms, experimental farms, mainly for the production sector for each crop for each species of detailed data for the mass production of laying a solid foundation, while meeting the customer's production and experiments. Experimental farm which focus on strengthening research, testing, production, management and development in one of the breeding, propagation, seed industry, engineering integration. With the successful implementation of the project and research strength has grown in strength, not only for production and development has injected new vitality, but also for the large area of seed technology to provide strong guarantee.

在鑫泽

我们注重培养人才，尊重人才，重用人才，我们坚信“人才是企业的命脉”。我们非常重视员工的培训，坚持对员工进行定期和不定期的业务及生产知识的培训，提高员工素质，在生产的每个环节做好详细的指导。

同时，我们不断分享成功的经验，也在失败中寻找成功的方法。我们重视沟通，我们更加重视站在客户及员工，农户的角度考虑问题。我们在生产的每个环节，都在坚持指导农户正确生产，培育出合格优质的种子。

随着种业日依法真壮大，张掖，酒泉，武威逐渐成为种子繁育的重要基地。在这片热土上，每年为国内外客户提供近万亩的种子繁育任务，所以种植环境是我们生存和发展的基石。

在鑫泽，每位员工都在倡导保护种植环境，同时公司每年都在保护种植环境方面做很大的投资。我们建立起自己的果皮，果浆回收站，我们要求我们的农户统一采收，统一取籽，公司集中处理对环境有害的物质，为今后的持续发展做出应有的努力。

In Xin Ze, we focus on cultivating talent, respect, reuse personnel, we firmly believe that "talent is the lifeblood." We attach great importance to staff training, insist on regular and irregular employees of business and production knowledge, training, improve staff quality, do a good job in the production of detailed guidance for each link. Meanwhile, we continue to share successful experiences, but also failed to find a successful method. We value communication, we pay more attention to customers and employees stand, the farmers point of view of the problem. We have every aspect of production, farmers are adhering to the correct guidance of the production, nurture the seeds of qualified quality. With the kind of real growth industry, the Japanese law, Zhangye, Jiuquan, Wuwei has become an important base for seed breeding. In this warm land, the annual domestic and foreign clients in recent mu seed breeding tasks, so plant species of the environment is the cornerstone of our survival and development. In Xin Ze, each employee advocate to protect plant species in the environment, and annual plant species in the protection of the environment have done a great investment. We set up their own skin, pulp recycling, and we ask our farmers harvest unity, unity to take seed, the company focus on substances harmful to the environment for future sustainable development and make due efforts.

在鑫泽

我们最宝贵的财富是——勤劳，智慧的种子生产户。他们拥有丰富的种子生产经验和严谨的质量意识。同时，配套各种精耕细作农业机械，拥有一支由中、高级技术人员和技术工人组成的素质高、具有丰富田间试验操作经验的生产队伍。

在鑫泽，每一位员工都时刻提醒自己“种子质量就是生命”，所以我们坚信我们提供给客户的每一粒种子都是合格的，都是精品。

In Xin Ze, our most valuable asset is — hard work, wisdom, seed production farmers. They have a lot of seed production experience and strict quality consciousness. At the same time, supporting a variety of intensive agricultural machinery, has a Central, senior technical personnel and skilled workers composed of high quality, with rich experience in production field trial operations team. In Xin Ze, every employee always remind myself that “the seed quality is life”, we firmly believe that we provide to our clients are qualified for each seed are fine.

生产一览表

作物crops	播种方式seeding method	类型Type	播种日期sow date	发芽温度(℃) germination temperature	定植日期 planting adte	去杂去劣时间 date for roguing the weak	授粉时间 pollination	收获日期 Harvest	交货时间 Delivery	备注remark
西瓜Watermelon	直播direct seeding	F1	0425 0415	最低(Min)16-17适 (fit for)25-30	5月May	7月July	7月July	0725-0815	9月SEP.
